KFSI2-3S-40

## high-temperature grease with solid lubricants VPG 927 H1 Halal

ELKALUB VPG 927 is a high-temperature grease for the lubrication of slide- and roll movements up to temperatures around 500°C. The grease is based on silicone oil and a synergistic mix of black solid lubricants. The silicone oil evenly spreads the solid lubricants and lubricates up to 250°C. Above these temperatures there is solid lubrication. The NSF-H1 registration of ELKALUB VPG 927 makes an application in Food-, animal-food- or pharma-industry possible. ELKALUB VPG 927 shows good compatibility with most plastics and sealing materials. Due to its black color an application in covered lubricating spots is beneficial.

**BASE OIL** silicone

**THICKENER** solid lubricants

**VISCOSITY** 750 mm<sup>2</sup>/s

**OPERATING TEMPERATURE** -40 °C bis 500 °C

**NLGI CLASS** 2-3

**FIELD OF USE**

- fittings
