## Assembly and contact grease VP 924

ELKALUB VP 924 is a universal assembly grease based on mineral oil. The grease facilitates various assembly processes and is suitable for the lubrication of sliding movements (e.g. guides, spindles, insertion ends of SDS tools). Due to its water-repellent properties and its strong adhesion, ELKALUB VP 924 protects against corrosion. In another application, ELKALUB VP 924 can be used to protect battery poles, pole terminals and electric plug connections. The grease shows good compatibility with the vast majority of plastics and sealing materials (except EPDM). ELKALUB VP 924 is available in a user-friendly brush can, which allows an economical, precise and clean application.

**BASE OIL** mineral oil

---

**THICKENER** Inorganic

---

**VISCOSITY** 460 mm<sup>2</sup>/s

---

**OPERATING TEMPERATURE** -20 °C bis 120 °C

---

**NLGI CLASS** 2

---

**FIELD OF USE**

- fittings
- 

**BUSINESS**

- Automotive
  - miscellaneous
