KP3N-20

## bearing grease VP 889 H1 Halal

ELKALUB VP 889 is a rolling and plain bearing grease based on a synthetic and an ester oil. Due to its relatively firm consistency and the high base oil viscosity, the grease is also suitable for the lubrication of more heavily loaded bearings at higher temperatures. A special application is the lubrication of chains in sterilizers. The well-adhering grease provides good corrosion protection and is also sufficiently resistant in a hot steam environment.

This is a special product which can be produced individually for you on request. Smaller quantities can apply. Please just talk to us.
