

KPOOK-20

Special fluid grease GLS 135/N00

ELKALUB GLS 135/N00 is a lithium-saponified semi-liquid grease with high performance. It has been designed for use in roller and slide bearings in the temperature range from -20 °C up to +120 °C. This short-fibred and homogenous grease is excellently suitable for the lubrication of ball bearings with a speed index of up to 500.000 as well as for linear units.
